

JNANAVI N N

Bangalore, India | jnanavingowda12@gmail.com | +91 7676715045 | [linkedin.com/in/jnanavi-n-gowda-40b038310](https://www.linkedin.com/in/jnanavi-n-gowda-40b038310)

PROFESSIONAL SUMMARY

Detail-oriented MCA graduate (May 2026) with hands-on experience in UI/UX design validation, frontend web development, and usability testing. Proven ability to identify UI/UX defects, validate interfaces against design specifications, and collaborate with cross-functional engineering teams. Strong foundation in wireframing, interaction design principles, and user-centered design. Proficient in Figma, HTML, CSS, and JavaScript. Eager to contribute to a product design team as a Junior UX Designer or UI/UX Associate.

SKILLS

UX Design Tools: Figma, Wireframing, Prototyping, Mockup Design, User Interface Design

UX Practices: User-Centered Design, Usability Testing, Interaction Design, Design Specification Review, Cross-Browser Testing, UI Defect Analysis, Responsive Web Design

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap — supports design-to-development handoff

Collaboration Tools: JIRA, GitHub, Postman, VS Code, MS Excel

Data Visualization: Power BI (beginner), Dashboard UI Design

Soft Skills: Attention to Detail, Analytical Thinking, Fast Learner, Team Collaboration, Feedback-driven Iteration

PROFESSIONAL EXPERIENCE

UI/UX Design Intern (Web Development) | Edutainer | Feb 2026 – May 2026

- Designed and developed 10+ responsive web pages using HTML, CSS, and JavaScript following user-centered design principles and visual hierarchy guidelines
- Conducted UI/UX defect analysis, identified and documented 20+ usability issues including layout inconsistencies, interaction failures, and design specification deviations — improving page stability by 35%
- Validated user interfaces against design mockups and wireframes, ensuring pixel-accurate implementation across 3 major browsers
- Collaborated within a 4-member cross-functional team to reproduce UI defects, verify fixes, and ensure usability standards were met prior to deployment
- Supported design-to-development handoff by bridging the gap between intended UX design and implemented interface

Junior UI Developer and Tester | Innovant IT Solutions | Jun 2024 – Jul 2024

- Designed and developed 5+ web application modules with consistent UI patterns, intuitive form layouts, and complete CRUD functionality
- Authored and executed 50+ manual test cases focused on UI workflows, form interaction design, and user input validation
- Identified 15+ UX defects in form validation logic and user feedback mechanisms; documented detailed bug reports with user impact descriptions
- Validated end-to-end user journeys between frontend interface and backend data, ensuring seamless and accurate user experience

PROJECTS

AI-Driven Smart Quiz and Certification System — Tech: Python, Django, PHP, HTML, CSS, JavaScript, MySQL

- Designed the end-to-end user flow for quiz attempts, automated answer evaluation, and certificate generation — focusing on task clarity and UX consistency
- Created and executed 30+ test cases for UI interactions and usability scenarios; identified and resolved 15+ bugs affecting interface responsiveness and user feedback
- Ensured consistent UI states across all user journey stages: loading, in-progress, result display, and certificate download

Hospital Management System — Tech: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Designed role-based user interface flows for 2 distinct user types (doctors and patients) with clear navigation, minimal cognitive load, and secure session handling
- Validated appointment booking and prescription management modules across 20+ usability test scenarios — focusing on intuitive task completion
- Applied regression testing across each iteration, reducing post-release UI defects by 25%

Student Attendance Management System — Tech: PHP, MySQL, HTML, CSS

- Designed and tested role-differentiated login flows for teachers and students, ensuring clear UI separation and error-free session security
- Validated attendance recording and retrieval workflows across 10+ edge case scenarios for accurate, user-friendly data interaction

EDUCATION

Master of Computer Applications (MCA)

Atria Institute of Technology, Bangalore | Graduating May 2026 | GPA: 8.5 / 10

Bachelor of Computer Applications (BCA)

Sahyadri Science College, Shivamogga | Aug 2024 | GPA: 8.7 / 10

CERTIFICATIONS

- Hands-On Web Development with JavaScript — Infosys Springboard, 2025
- Python for Data Science — Infosys Springboard, 2025
- Power BI for Beginners — Simplilearn, 2025
- Business Analytics with Excel — Simplilearn, 2025
- Google Cloud Computing Foundations — VTU MOOC, 2026
- Artificial Intelligence in Real World — UpGrad, 2025
- HTML and Java — EduPyramids / IIT Bombay, 2025
